Year in Review - Accomplishments

The biggest challenge of 2020 has been the COVID global pandemic. Never before, did we have to act with so much agility to meet the needs of the Owners, Guests when they were allowed and the restrictions of the municipality and the Mexican Government.

The most difficult aspect was laying off so many of the Hospitality staff due to the closing of the food and beverage outlets, Spa, kid's club and recreation. Fortunately, the workers attending to the Regimes and Master Scopes of Work still had their jobs to do to maintain the property.

These staff members had to be retrained in methods of the New Normal for both personal protection and for that of our Owners and Guests. The required protocols were put into place and Vivo was recognized as the most compliant in the area. We were also recognized as a SafeTravels resort by the secretary of tourism for the state of Oaxaca.

Financial Snapshot – Capital Expenditures

In 2020 the reserve components were identified with the expected remaining useful life and replacement costs determined.

In 2020 the funds were not segregated between Operating and Capital Reserves, so all the expenses that could be considered Capital Reserve expenses were classified as operational expenses. In the future these expenses will be tracked separately.

The "bottom line" remains the same. The segregation of these funds helps with asset management, planning and budgeting. In 2021 this process will be implemented.

Significant Variances to Budget

Revenue

The budgets were not completed until April and the increase in assessments were only for 6 months. This resulted in a revenue shortage of approximately \$2.6m pesos.

Payroll – Some savings during closure. Budget error in BBQ. Didn't budget for bathroom cleaning.

Administration

Admin General - Equipment leases, down payment for general property management, bank fees for setting up payment link and reserve account.

Insurance – Over budget due to a misquote of insurance premium.

Banking Fees – Over budget due to the initial set up of bank accounts

Legal – No expenses

Utilities

Electricity & other utilities - Savings due to lower occupancy and efforts of management to contain costs.

Extraordinary Expenses

Prior year electricity adjustment with Regime 1

Significant Variances to Budget

Budget & Assessment Comments

Insurance is based on the current reduced rate with a slight increase for inflation and currency exchange.

Payroll

Services remain the same. but level of quality will rise. Payroll increases due to raises, benefits, increased cost of transport due to CoVid and improvement in employee meals.

Operating Expenses

Being kept in check due to more efficient management of processes, better purchasing options through HSM a purchasing co-operative.

Outside Vendors

Negotiated contracts to keep the same or with slight increase from prior year.

Will lose COVID credit on elevator.

Utilities

Efforts of management to contain costs will contain costs.

Reserves – Based on third party Reserve Study

Leadership Council Purpose

The purpose of this Council is to act in concert to recommend unified goals, cost efficiencies, initiatives, rules, regulations and policies that apply to and benefit all Regimes, the Master and the Community and to keep all Boards informed of issues, events and policies that may be of relevance to the Community and that in turn, the Council is kept informed by individual Boards of issues of relevance to the Owners within the Community.

Objectives

Our SMART objectives fall within four broad areas for 2021. These are Communication, Safety, Fiscal, and Land Stewardship

2021 Objectives

Communication

Objective #1

Create a communication roadmap that delivers clear, respectful, and timely communications to the parties represented by the leadership council. The roadmap will include how feedback and/or questions from Owners (and guests), can be effectively managed.

Safety and Security

Objective #1

Work with management to identify areas of safety & security that are deemed most relevant to the community and communicate them efficiently and precisely to the members.

Objective #2

Establish a program to garner feedback from the community concerning their understanding of the safety program and what they need to do in the event of an emergency. Perform practical tests of knowledge as needed.

Objective #3

Work with Management and the Boards to review community related safety incidents quarterly with the intent to ensure there is a culture of continuous improvement and learning.

2021 Objectives

Land stewardship

Objective#1

Work with management and the Vivo Foundation to identify two recycling projects in 2021 that will begin to create a community culture of recycling and introduce opportunities for Owners to get engaged with the community.

Fiscal

Objective #1

Provide a quarterly overview of fiscal matters across regimes with a clear view for fairness, transparency, efficiency with the objective of optimizing costs and processes across the site by working with the Vivo Boards.

Objective #2

In 2021, the Leadership Council, with management, will support and assist as needed with the Fibre installation project providing regular communication with the appropriate Boards and Owners, including cost summaries and project timing. The Leadership Council will work with Management on any training or instructions Owners may require to fully utilize the new equipment. Management will report on the project timeline and associated costs.

Challenges

- Covid: This has affected the world, including our Vivo team, you our Vivo Owners, guests, the community AND the world at large.
- As a result of Covid:
 - We unfortunately had to close down many of our outlets and downsize our team.
 - Rental occupancy was low in 2020 and continues in Q1 2021.
 - Pace of construction with Covid protocols requires a limited number of workers per site.
 - Manufacturing & transportation challenges continue.
 - Resort outlets occupancy has been low.
 - We have a higher number of resales listed due to lingering affects from poor operations & service in 2019, travel restrictions resulting in low rental income in 2020 and Owners unable to use their properties, & Owners upgrading to other properties at Vivo (this is the good news).
 - Volume of new sales and re-sales is lower than our historic numbers as a result of prospects unable to fulfill Discovery Tour reservations.
 - The Canadian market has typically been strong for Vivo, but with Covid travel restrictions, this market is not currently travelling. US & Mexico are travelling more so, thus shifting our focus to more aggressively get in to these markets.

2021 Initiatives

- Sales & Marketing is initiating an external broker program to leverage additional market depth for sales.
- We are embarking on a US & Mexico Sales & Marketing strategy to attract prospective buyers who are still willing to travel.
- We continue to learn from other recreational communities that are experiencing tremendous sales success as a result of drive-to markets.
- We are updating the Vivo Master Plan and will be introducing product mixes with anticipation of increased demand to Vivo.
- Adaptability to updated Covid restrictions will continue.
- Striving to find rental markets and the right rates that will help boost rentals in Q2-Q4 2021 (Mexico & US).
- Continuing to construct 5 villas and discussing 2021 pricing with our current lot owners so as to encourage them to build now.
- Commenced construction on our 2nd villa at Nuevo Escondido.

2021 Initiatives

- Currently continuing working on construction of Nautico Residences
- Pricing & sourcing road surfacing materials for the Vivo blvd to reduce dust.
- Working to complete a construction road to reduce construction traffic on the Vivo blvd.
- Created all of the installation plans & applied for Construction permits for Botanica A6 Condo Building.
- Targeting to start on Botanica A6 condos in March.
- Upon approval from the majority of the associations & their owners, & the developer, the Fiber project will be undertaken in 2021. This should help rentals & resales

MARKET TRENDS

COVID accelerated trends

Technology is allowing and now proving that people can work from any location.

Recreational properties demand is on the rise due to Covid "Cabin fever".

There is a pent up demand to travel, adventure and recreate.

With the pandemic on people's minds, people are looking to move out of highly populated cities and thus impacting real estate demand in those markets.

With the pandemic now forefront, people are looking to vacation in less densely populated areas, thus increasing the attraction of Vivo.

Many governments are massively in debt, and as a result, there is inherent risk if all of your RE, assets, or currency are only in one state or only in one country.

MARKET FORCES

PSYCHOGRAPHIC

For primary homes, 2nd homes, and vacationing, there is a trend toward authentic experience locations that are <u>not purpose-built for tourism</u> but still have <u>full</u> <u>amenities</u>, infrastructure, convenience, safety and refinement.

The Boomers are aging differently: More than any other generation in history, they are working to hold on to health and vitality through active living and continued exploration of destinations and activities.

Now the pandemic has people seeking less crowded places to connect with nature and social distance naturally. (This is impacting where they vacation and where they buy primary and 2nd homes & recreational property.)

Post COVID Trends

- Vivo is set up and well positioned for the post vaccination stage.
- We offer a social distancing beach experience, open air restaurant, bar and event space. Open air hallways and stairs are also a positive.
- Based on these trends, many recreational property locations in the US and Mexico are seeing record years for real estate sales volume and prices. Based on these trends, we anticipate an increase in demand coming to Vivo for rentals and also for real estate sales of re-sales and new sales.

Owner Questions

Question	Answer
We have been hearing that Cary has been showing Vivo to investors. Is the Vivo development for sale?	Cary is seeking a partner that aligns with the Vivo vision. "Smart with Heart" is the criteria. We are seeking to align with a partner that aligns with our desire to create an enduring resort to live happier, healthier and more connected. Ideally that has experience in hospitality, real estate development &/or constriction.
Can the Vivo residents help make Ernesto's a better more consistent place to eat?	Owners are encouraged to make suggestions. The menu has been adapted to the Owners requests. During COVID, our menu items have been limited but gladly accept all positive input.
When we receive a message that a fairly extensive repair or replacement is necessary (air conditioners, cracked/popped tiles, etc.) could a photo be sent when possible?	This is our normal protocol. If you need more pictures or information, just let us know.
What is the projection for Discovery tours coming in the next few months?	So much of this depends on the protocols for Canada and the US relative to COVID
If we proceed with fiber optics how can it be better when the provider is not great?	The connectivity will be more consistent. It will not be perfect. Yes the bandwidth may fluctuate and times and be low at times but what bandwidth we do receive will not be lost in the airwaves because now it will be hardwired.
For those of us who have our units up for sale in a time when US and Canadian visitors are not traveling to Mexico, is Vivo trying to work with outside realtors to help sell some of the resale inventory.	Yes, relationships are being forged with Mexican Real Estate Companies.
Is there an ETA on the pool in front of Marino?	Our D&C team is projecting 6 months. This pool is 63 meters long and the biggest in all of Puerto Escondido.
